

## Taiwan Vice Minister visited PWRI

On 15 July 2015, Mr. Wei-Fuu Yang, the Vice Minister of the Ministry of Economic Affairs and nine Taiwan delegates visited the Public Works Research Institute (PWRI). The purpose of this visit was to follow up the joint session for adapting to change during the 7th World Water Forum in Korea, April 2015. After the minister and the delegates paid courtesy visits to Mr. Noguchi, Deputy President of PWRI, technical issues related to the climate change adaptation were discussed with Prof. Toshio Koike, the director of International Centre for Water Hazard and Risk Management (ICHARM) and other staffs. ICHARM has been conducting the research on the assessment of climate change, so research exchange and technical cooperation will contribute to the further activities on delivering best available knowledge to local practices for mutual benefit.
